

# Ziyue Ge (葛子越)

✉ geziyue23@stu.pku.edu.cn

I am currently a junior student in Turing Class, an honors program of computer science founded by the School of Electronics Engineering and Computer Science (EECS) at Peking University (PKU).

I have broad interests in computer science, particularly in computer systems, large language models (LLMs), and the intersection of AI and logic.

## 🎓 EDUCATION

Sep 2023 – present	<b>Peking University · EECS · Computer Science</b> Currently participating in the Logic Minor Program in the Department of Philosophy at Peking University <i>GPA: 3.72 / 4.0</i> <i>Major GPA: 3.80 / 4.0</i>
--------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

## 💼 WORKING EXPERIENCE

Jun 2025 –	<b>MiniMax · LLM Research Intern</b> I mainly worked in pretraining data team.
Oct 2025	I was deeply honored to work under the guidance of Prof. Wenhui Chen on agentic data synthesis for CPT.

## ▢ TEACHING EXPERIENCE

Fall 2025	<b>Peking University · Teaching Assistant</b> for <i>Introduction to Computer Systems</i> , a course covering the fundamental concepts of computer systems for all sophomore CS students
-----------	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

## 🔧 PROFESSIONAL SKILLS

I am proficient in C/C++, Rust, Python, and Haskell

I have extensive experience with Linux and computer systems and have implemented an OS kernel in Rust for my operating systems course

I can use basic programming tools like Git and Docker

I am familiar with formal verification and can use languages like Lean and Coq

## 🏅 HONORS AND AWARDS

<b>The 2024 ICPC Asia Hong Kong Regional Contest</b>	<b>Gold Medal (1st place)</b>	December 2024
<b>The 2024 ICPC Asia Kunming Regional Contest</b>	<b>Gold Medal (4th place)</b>	December 2024
<b>John Hopcroft Scholarship</b>		2024
<b>Chinese National Olympiad in Informatics</b>	<b>Gold Medal (top 50 in China)</b>	August 2022
